Today's alternative to tiles

With easy installation, no grouting and a unique high-performance fitting system, Perform Panel is the beautiful, efficient, modern alternative to tiles. Available in a large selection of stylish designs across five core ranges, Perform Panel works with any interior scheme. Made in the UK, by a family firm trusted by the building industry for over 163 years.

No other panel performs like Perform Panel

Perform Panel works beautifully for bathrooms - and many other applications. Being five times faster to fit than tiles and exceptionally easy to maintain, our wall panels are perfect for a wide range of projects from bathroom wet walls to hygienic wall cladding in commercial properties.

Nu-lock. Just click to fit.

Our unique Nu-Lock tongue-and-groove click system gives you a seamless, practically invisible finish, a major improvement on the traditional straight joint profile. The Nu-Lock system is available in almost all of our designs. While accuracy of pattern alignment is dependent on scale of pattern, Nu-Lock will ensure fast and seamless results that last a lifetime.

Scan here to see how Nu-lock panels fit together seamlessly

Keeping plywood at the core

In our commitment to delivering quality, high performing products we use plywood in the core of our panels. Our standard panels feature an Indonesian 5-ply core and Nu-lock panels feature a Latvian 7-ply Birch plywood core, both are certified under our FSC® (FSC-C015696) and PEFC (PEFC/16-37-112) chain of custody.

Trims

The perfect panel deserves the perfect trim. Seal and finish edges and joints with our range of wall panel trims, available in a variety of finishes including satin anodised aluminium, white, chrome, brushed black, brushed brass or black. Trim samples can be requested as part of a 'trim bundle' or in a specific finish.

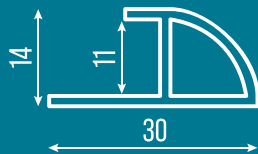

All trims are available in 2450mm long sections, with the exception of the Panseal trim which is only available in 1850mm long sections.

Finishes

Perform Panel is available in a selection of different finishes, depending on the selected decor. These include gloss, matt and textured finishes.

Adhesive & Silicone

Our own brand adhesive and silicone sealant have been developed specifically to ensure optimum performance with our panels and trims. Colour matched silicone is available, subject to a minimum order.

Specifications

Origins, Harmony & Elegance Panels

Supplied in an 11mm thickness, with three standard sizes, in either an MDF (exterior or moisture resistant grade) or a WBP Plywood (5-ply Indonesian on standard panels or 7-ply Birch on Nu-lock panels) core.

2400 x 600mm

Plywood Weight	12kg
MDF Weight	13kg

2400 x 900mm

Plywood Weight	18kg
MDF Weight	20kg

2400 x 1200mm

Plywood Weight	24kg
MDF Weight	26kg

*Nu-Lock panels have a slightly reduced face size.
Working sizes are as follows:

2400 x 580mm | 2400 x 880mm | 2400 x 1180mm

Perform Panel can also be cut to specific sizes to suit the customers' requirements. Please get in touch if you wish to enquire about a custom size.

Tile Effect Panels & Woodgrains

Installation in hours, not days

With Perform Panel there's no grouting - which means no curing time and no messy clean-up. You can usually fit a full wall, using made-to-measure panels or standard sizes, in just a few hours. Particularly with our Nu-lock system, installation is fast, accurate and delivers seamless results that last a lifetime.

Argon

Just 163 years to bring you tomorrow's bathroom wall

Backed by a family company that's been serving the UK building industry since 1860, we strive for quality and safety when manufacturing every panel using state-of-the-art machinery and have achieved ISO 90001:2015 accreditation.

Our standard panels are manufactured using either a 5-ply plywood core or MDF (exterior or moisture resistant). Our Nu-lock panels are manufactured using a 7-ply Birch plywood core. The boards are bonded to HPL (High-Pressure Laminate) to the front face and a backing HPL to reverse. Paper forms the basis of High-Pressure Laminates. The paper is impregnated with phenolic and melamine resins,

dried and compressed to form a hard-wearing, stable coating. The laminate can be bonded to various substances and is resistant to most chemicals. With a vast range of experience in delivering products for multiple sectors, we take pride in our customer service and will guide you through the process to ensure you receive what is right for your specification and requirements.

PVC Wall and Ceiling Panels

We also offer a range of PVC wall and ceiling panels available in a variety of colours, which are ideal for both domestic and commercial applications. All panels feature a tongue and groove click system making them easy to install for a quick but luxurious finish to any room.
